

Culminating Project Reflective Essay Prompts

A part of the process for completing your project is to write a short reflective essay about your Culminating Project experience. Here are some prompts to help you.

Please organize your essay in a way that makes sense. It is not necessary to respond to every prompt because there is some overlap. Be sure, however, to read each prompt before you start writing.

Approximate length should be 2 - 3 pp., typed, double-spaced.

- Write about your learning over the course of the project. What did you learn that you didn't know before?
- What did you learn about yourself, your work habits, organization, motivation, etc.?
- What elements of your project are you most proud of and why?
- What elements of your project do you wish went better or you could revise? Why?
- As you look back on your Culminating Project experience, what were some of the highlights and low-lights?
- How has completing this project made you interested (or not interested) in pursuing (or not pursuing) other activities related to this project? What, if anything, has this project inspired you to pursue.
- Describe what the value of the Culminating Project is to you.
- What advice would you give other students who might embark on a similar project?
